NICHOLE CRUZALEGUI

TECHNICAL SKILLS

JavaScript | HTML | CSS | python | Node.js | git | VSCode | Node.js | git |
Webflow | ffmpeg | PurgeCss | React | Gulp.js | Greensocks | Express | Selenium
Google Web Designer | Sequelize | Redux

EXPERIENCE

Omnicom Production, NYC – *Digital Developer*

APRIL 2023 – MAY 2026

- **Created optimized animated banners and digital assets** using Adobe Creative Suite, consistently delivering within tight campaign deadlines while maintaining under 200kB file sizes for web performance
- **Developed diverse digital experiences** ranging from interactive prototypes and microsites to full Single Page Applications (SPAs), adapting technical approach to meet specific campaign objectives
- **Managed comprehensive asset optimization** ensuring all deliverables met strict performance benchmarks, resulting in faster load times and improved user experience across all campaign deployments

BBDO, NYC – *Junior Developer*

APRIL 2021 – APRIL 2023

- **Developed animated assets** and optimized deliverables to meet performance standards for web delivery
- **Collaborated with stakeholders** and creative teams to define project requirements and deliverables

Explorastay, remote – *Software Engineer Intern*

October 2020 – APRIL 2021

- **Redesigned website frontend** to match UX wireframes using a mobile-first responsive approach
- **Developed automated test suites** using Selenium and Python to improve code reliability

PROJECTS

The PSAi Site for Columbia Journalism Review | theipsai.com

- Developed a high-impact, media-literacy landing page for the Columbia Journalism Review (CJR) to train users on identifying AI-generated misinformation.
- Built out a smooth, responsive user interface featuring an educational "How to Spot AI" toolkit, embedded multimedia elements, and a curated reading section.
- Collaborated closely with design and content teams to ensure the site's unique typography, fast load times, and cross-browser performance matched the high standards of a major public service campaign.

Ad Age Creativity Awards: Winner for "Best Use of AI".

Cresta Awards: Won Bronze in the category of Creative Use of AI and other digital/social campaigns.

The One Show: Recognized for its viral impact and external outreach.

Quaker Invisible Workouts Site | quakerinvisibleworkouts.com

- Developed a mobile-responsive landing page to drive awareness of a change.org petition advocating for fitness trackers to recognize parenting as a workout
- Implemented strategic QR code integration from social media campaigns to capture and convert traffic
- Optimized site performance through WebP image compression, custom lightboxes, and dynamic styling for cross-browser compatibility

Built entirely in Webflow

BBDO site — <https://cruzn978.github.io/bbdo-studios-site/>

- Architected a React app that pulled live data from a WordPress backend via REST API to showcase project work dynamically
- Demonstrated full-stack integration skills by fetching and rendering content from a headless CMS

Note: Backend API is no longer active; this serves as a partial demo of past work

Haicoo — <https://cruzn978.github.io/haicoo-demo/>

- Progressive Web App that generates haikus from user-uploaded images using TensorFlow's MobileNet for image classification and DataMuse API for word suggestions
- Built with React, Bootstrap, and Shards for a responsive, interactive UI
- Implemented PWA functionality with Workbox for offline-first capabilities

Stack: TensorFlow, DatamuseAPI, Workbox, Bootstrap, Shards, React

EDUCATION

Grace Hopper Program at Full Stack Academy, NYC

JANUARY 2020 - MAY 2020

Prestigious Software Engineering Immersive that concentrates on full stack web development with a focus on honing teamwork & leadership building skills through pair-programming

The New School, NYC – *BA of Fine Arts*

SEPTEMBER 2014 - DECEMBER 2016

Graduated Jazz/Contemporary Music with Honors
